

We represent quality products from a select group of component manufacturers in the electronics OEM marketplace in Canada.

Find the right product from the right manufacturer

Bel Fuse Inc. – POWER / PROTECT / CONNECT

Bel manufactures and sells electronic products including DC/DC converters, transformers and connector modules, fuses and delay lines for applications in networking, telecommunications, consumer electronics, automotive and other industries. circuit protection devices to power conversion modules, transformers and connector modules to integrated line interface products. Its subsidiary company, Stewart provides the industry with passive jacks, plugs and cable assemblies that provide connectivity in networking equipment.

Bel Power – POWER / PROTECT / CONNECT

Bel Power Solutions provides intelligent, electrically efficient and reliable power conversion devices. True applications of our power conversion devices range from board-mount power to system-level architectures for servers, storage, networking, industrial and telecommunications industries

Cinch Connectivity Solutions – POWER / PROTECT / CONNECT

Cinch Connectivity Solutions is a vertically integrated supplier of high quality, high- performance connectors, and cable assemblies. Cinch's strategic brands include Data/Telecom Connectors , M83513, Micro-D, Hermetics D-Subs, RF interconnects , Ruggedized enclosure systems, I/O SHS headers, harness connectors and Cable Assemblies

CUI Inc. - Power products how you want them, when you want them.

CUI began designing and selling power supplies into a portfolio of AC-DC power supplies and DC-DC converters. Today they are proud to offer an extensive line of power products to our global customer base that serve the consumer, IoT, industrial, and medical industries.

JST Connectors - Delivering the Future Connecting the World

JST's creation of the world's smallest connectors for ground-breaking wearable equipment. We are committed to creating the best tools to power your machines so that together we can deliver the future. Connectors include: wire-to-board, board-to-board, wire-to-wire, FFC/FPC, and many others.

NIC Components - Performance Passives by Design

NIC Components Corporation has been manufacturing and designing passive components. From a core business of Aluminum Electrolytic Capacitors, NIC expanded its product offering to Tantalum Capacitors, Ceramic Capacitors, DC Film Capacitors, Thick and Thin Film Resistive Products, Power Inductors, Ferrite Chip Beads and a growing line of antennas.

Anderson Power Products – Bringing Power and Signaling to Your Application

Anderson Power Products®, is an international leader in high power interconnect solutions with offerings for up to 700A and 1,500V. APP offers one of the industry's broadest selection of AC/DC power connections with specialties in Battery, DC Power Distribution, & Specialized Power Inlets and Outlets.

Coto Technology – Advanced Switching and Magnetic Sensing Solutions

COTO TECHNOLOGY RELAYS, SWITCHES, & SENSORS

RedRock™ TMR Technology Magnetic Sensors (Tunneling Magnetoresistance) & Switches Using proven TMR (Tunneling Magnetoresistance) technology, the high-performance RedRock™ digital magnetic switch offer the lowest power consumption, coupled with high sensitivity and ultra-miniature package size. **Coto Classic Reed Relays & Switches and CotoMOS® Mosfet Relays**

E-Switch – Delivering Quality Electromechanical switches since 1979

E-Switch, Inc. is a switch supplier that offers one of the broadest switch lines available today. Snap-action switches; slide switches; sealed, illuminated pushbutton switches; SMT pushbutton switches; and illuminated rocker switches.

*Eastern Canada only

NMB – Passion to Create Value through Difference

NMB offers a comprehensive line of more than 150 axial fans, blowers, and impellers ranging in size from 25mm to 280mm. DC Fans include a new line of IP69K cooling fans, ball-bearing and sleeve bearing fans. AC Fans feature UV/Wet location cooling fans as well as IP54 rated fans for harsh environments. AC Fans feature UV/Wet location cooling fans as well as IP54 rated fans for harsh environments.

PUI Audio – When It Needs To Be Heard

PUI Audio is a leading developer, manufacturer and supplier of quality audio devices and components including indicators, transducers, piezo benders, speakers, audio eXciters, microphones, and sirens. Industry leading product testing and quality, custom design solutions, and breadth of product line.

Qualtek – Connecting the world around you

Qualtek offers a complete line of fan accessories, power entry receptacles, EMI power line filters, power supply cords and cord sets, custom cable assemblies and wire harnesses and heat shrink tubing.

Taiwan Semiconductor – Global manufacturer of discrete semiconductor devices and analog ICs

Taiwan Semiconductor is known for its core competence in discrete Power Rectifiers, Trench Schottky's, MOSFETs, Power Transistors, LED Driver ICs, Analog ICs and ESD Protection Devices. Taiwan Semiconductor's production facilities in China and Taiwan are fully compliant to current automotive and environmental standards such as IATF16949, ISO9001 and ISO14001.

Triad Magnetics – Optimally Designed Magnetics Off The Shelf or Custom

For over 60 years, consumer, commercial and industrial electronic devices have relied on innovative magnetics technology from Triad Magnetics. Triad offers solutions for power conversion, filtering, isolation and more. Thru-hole, SMD, Leaded, Planar, Toroidal, Potted, Flat Wire, Litz Wire, Bobbin Wound, Edge Wound, Section Wound, Low Frequency, High Frequency, Low Voltage and High Voltage are available.
